The following action is in response to the amendment received July 7, 2009.

Claims 2-4, 6-16 and 19 are pending.

Allowable Subject Matter

Claims 2-4, 6-16 and 19 are allowed. Claims 4, 2, 16, 3, 7, 6, 8, 9, 19 and 10-15 will be renumbered for printing as claims 1-15, respectively.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record does not anticipate or render obvious a control system as defined in claim 4, wherein the electromagnetic coil is divided into two portions by connecting a central line to a central portion of the electromagnetic coil, and wherein a switch is provided downstream of the variable setting unit, the switch being operable to effect a change-over between a drive mode in which electric power is applied to the electromagnetic coil through a power supply line and a heating mode in which electric power is applied to the electromagnetic coil through the central line to apply currents that are opposite in direction to each other to the two portions of the coil, respectively, thereby producing magnetic fluxes from the two portions of the electromagnetic coil that cancel each other.

The art of record also does not anticipate or render obvious a rotation transmission device as defined in claim 7 wherein the electromagnetic coil is divided into two portions by connecting a central line to a central portion of the electromagnetic

Art Unit: 3655

coil, and wherein the electromagnetic coil is selectively changed over between a drive mode in which electric power is applied to both ends of the electromagnetic coil to produce attraction force from the electromagnetic coil and a heating mode in which electric power is applied to the electromagnetic coil through the central line to apply currents that are opposite in direction to each other to the two portions of the coil, respectively, thereby producing magnetic fluxes from the two portions of the electromagnetic coil that cancel each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

The amendments to the claims, filed July 16, 2009, overcome the rejections under 35 USC 112, 1st paragraph, and 35 USC 112, 2nd paragraph. Accordingly, the rejections are withdrawn.

Substitute Specification

It is not clear from the record whether the examiner previously acknowledged receipt of the substitute specification filed August 25, 2008 or indicated that entry has been approved. Accordingly, receipt of the substitute specification is hereby acknowledged. The substitute specification has been approved for entry.
